PLANT AND SOIL

Contents Volume 223, No. 1/2 2000

Measurement of decomposition and associated nutrient release from straw (*Oryza sativa* L.) of different rice varieties using a perfusion system
G. Villegas-Pangga, G. Blair and R. Lefroy 1–11

Potentiometric measurement of stability constants of complexes between fulvic acid carboxylate and Fe^{3+}
S.B. Pandeya and A.K. Singh 13–21

Soil microfloral and microfaunal response to *Salicornia bigelovii* planting density and soil residue amendment
W.L. Goodfriend, M.W. Olsen and R.J. Frye 23–32

Estimating crop N uptake from organic residues using a new approach to the ^{15}N isotope dilution technique
R. Hood, R. Merckx, E. Steen Jensen, D. Powlson, M. Matijevic, and G. Hardarson 33–43

Soil patchiness in juniper-sagebrush-grass communities of central Oregon
C. Roberts and J. Allen Jones 45–61

Effect of nitrogen form and phosphorus source on the growth, nutrient uptake and rhizosphere soil property of *Camellia sinensis* L.
J. Ruan, F. Zhang and M.H. Wong 63–71

Compared root system architectures in seedlings and *in vitro* plantlets of *Hevea brasiliensis*, in the initial years of growth in the field
M.P. Carron, Y. Le Roux, J. Tison, B.G. Dea, V. Caussanel, J. Clair and J. Keli 73–85

A rhizolysimeter facility for studying the dynamics of crop and soil processes: description and evaluation
M. Liedgens, W. Richner, P. Stamp, A. Soldati 87–97

X-ray absorption and phase contrast imaging to study the interplay between plant roots and soil structure
C.J. Moran, A. Pierret and A.W. Stevenson 99–115

Growth analysis of maize field crops under phosphorus deficiency
D. Plénet, S. Etchebest, A. Mollier and S. Pellerin 117–130

Root growth of cauliflower (*Brassica oleracea* L. *botrytis*) under unstressed conditions: Measurement and modelling
H. Kage, M. Kochler and H. Stützel 131–145

Autotoxic potential of cucurbit crops
J.Q. Yu, S.Y. Shou, Y.R. Qian, Z.J. Zhu and W.H. Hu 147–151

Leaf water characteristics and drought acclimation in sunflower genotypes
P. Maury, M. Berger, F. Mojayad and C. Planchon 153–160

Nutrient status in needles of Norway spruce and Scots pine following harvesting of logging residues
B.A. Olsson, H. Lundkvist and H. Staaf 161–173

Effect of the saprophytic fungus *Fusarium oxysporum* on arbuscular mycorrhizal colonization and growth of plants in greenhouse and field trials
S. Fracchia, I. Garcia-Romera, A. Godeas and J.A. Ocampo 175–184

Influence of gap size and soil properties on microbial biomass in a subtropical humid forest of north-east India
A. Arunachalam and K. Arunachalam **185–193**

Improvement of nutritional site quality 13 years after single application of fertiliser N and P on regenerating cedar-hemlock cutovers on northern Vancouver Island, B.C.
R.L. Bradley, B.D. Titus, C.M. Preston and J. Bennett **195–206**

The effects of irrigation regimes on the water use, dry matter production and physiological responses of paddy rice
J. Lu, T. Ookawa and T. Hirasawa **207–216**

Physiological responses to water stress following a conditioning period in berseem clover
A. Iannucci, A. Rascio, M. Russo, N. Di Fonzo and P. Martiniello **217–227**

Genistein preincubation of *Bradyrhizobium japonicum* cells improves strain competitiveness under greenhouse, but not field conditions
B. Pan and D.L. Smith **229–234**

Preincubation of *B. japonicum* cells with genistein reduces the inhibitory effects of mineral nitrogen on soybean nodulation and nitrogen fixation under field conditions
B. Pan and D.L. Smith **235–242**

Copper uptake and translocation in chicory (*Cichorium intybus* L. cv Grasslands Puna) and tomato (*Lycopersicon esculentum* Mill. cv Rondy) plants grown in NFT system. II. The role of nicotianamine and histidine in xylem sap copper transport
M.T. Liao, M.J. Hedley, D.J. Woolley, R.R Brooks and M.A. Nichols **243–252**

Root dynamics in a semi-natural grassland in relation to atmospheric carbon dioxide enrichment, soil water and shoot biomass
E. Sindhøj, A.-C. Hansson, O. Andrén, T. Kätterer, M. Marissink and R. Pettersson **253–263**

Effects of N-deposition on ion trapping by B-horizons of Danish heathlands
K.E. Nielsen, B. Hansen, U.L. Ladekarl and P. Nørnberg **265–276**

An assessment of the relative effects of adverse physical and chemical properties of sodic soil on the growth and yield of wheat (*Triticum aestivum* L.)
D. Wright and I. Rajper **277–285**

Author index **287**
